課程概述	<p>林尹星老師:</p> <p>Latin elements contributed a lot to the rich buildup of English vocabulary, with a variety of prefixes and suffixes and a multitude of word roots. This course provides students with access to essential knowledge about Latin elements, with the purpose to help students speed and strengthen the growth of their English vocabulary to a remarkable extent. It is also hoped that students can thereby acquire a substantial background against which they begin to understand vocabulary as a representation of cultural aspects rather than a communication vehicle.</p>
