

南台科技大學 103 學年度第 1 學期課程資訊

課程名稱	研究方法(一)
課程編碼	C0Q08R01
系所代碼	0C
開課班級	碩專應英一甲
開課教師	黃大夫
學分	3.0
時數	3
上課節次地點	六 5 6 7 教室 N309
必選修	必修
課程概述	The purpose of this course is to provide students an accessible introduction to language learning research, an understanding for what research activities are like, by engaging students in several roles within a variety of mini-studies across a range of research design types, both quantitative and qualitative.
課程目標	<ol style="list-style-type: none"> 1. To familiarize course participants with various research methods categorized under qualitative and quantitative research methods 2. To help course participants build a solid, realistic, and applicable foundation of doing research for the required MA thesis 3. To help course participants complete a working research proposal at the end of the semester that demonstrates their essential understanding of research methodologies as employed in the studies of foreign language learning and teaching or related fields in applied linguistics
課程大綱	<ol style="list-style-type: none"> 1. Offer students a basic concept about doing quantitative and qualitative studies and help students actually propose one. 2. Provide students a basic concept of how to find their research topics, search for literature online, and cite their works in APA style. 3. Help students to read and evaluate the research of others. 4. Offer students a chance of how to present their baby studies.
