

南台科技大學 103 學年度第 2 學期課程資訊

課程名稱	詞彙學與英語教學
課程編碼	C0Q08F01
系所代碼	0C
開課班級	碩專應英一甲
開課教師	黃大夫
學分	3.0
時數	3
上課節次地點	六 8 9 11 教室 N309
必選修	選修
課程概述	This course introduces students to theories and issues of lexicology and lexical acquisition, and their implications for vocabulary learning and instruction. An emphasis will also be placed on empirical research in vocabulary learning and instruction conducted in the second language acquisition and teaching settings.
課程目標	In this course, participating students will be guided to achieve the following goals: --To understand theories of and issues about lexicology and vocabulary acquisition; --To be able to design vocabulary instruction programs as informed by lexical theories and research; --To be able to design and conduct research to answer questions related to vocabulary acquisition, instruction, and assessment; --To be able to critically evaluate empirical studies on vocabulary learning and instruction.
課程大綱	This course will explore the following topics: --the definition of “word” --word structure, collocation, word-class, and meaning --how words are learned in L1 and L2 --texts, dictionaries, and corpora --teaching word parts and word chunks --training good vocabulary learners --assessing vocabulary
英文大綱	This course will explore the following topics: --the definition of “word” --word structure, collocation, word-class, and meaning --how words are learned in L1 and L2 --texts, dictionaries, and corpora

	--teaching word parts and word chunks --training good vocabulary learners --assessing vocabulary
