Title The Relations between Profitability and Financial Ratios: A Comparative Study of Taiwan and Hong Kong Listed Banks
Date of Defense 0000-00-00
Page Count 54

Keyword
Taiwan listed banks; Hong Kong listed banks; financial ratios; profitability; relations.

Abstract
This study compares the profitability between two banking system by using t-test. One is Taiwan listed banks and another one is Hong Kong listed banks. The study also explores the relations between profitability and financial ratios of these two banking systems by using stepwise regression, and then considers the differences of relations between profitability and financial ratios between Taiwan and Hong Kong listed banks. The data of the study is collected from 13 Taiwan listed banks and 14 Hong Kong listed banks. The results indicate that, compares to Taiwan listed banks, Hong Kong listed banks are more profitable. The results also show that the relations between profitability and financial ratios of both Taiwan and Hong Kong listed banks are highly significant. And the last result of this study is there are differences in the relations between profitability and financial ratios of Taiwan listed banks and that of Hong Kong listed banks.
