課程概述	<p>Students should be able to write essays or reports in English at an intermediate to advanced level, including proficient structure and content. In the essay writing process they will be expected to present an evaluation or critique of the subject or issue at hand and conclude with recommendations suggestions or predictions.</p> <p>Also stressed in this course will be demands on originality and effectiveness in their assignments. Further development of writing skills may include appropriate tone and mood. Content must be created or it may be synthesized using information from multiple sources, using quotations and paraphrasing of texts. Throughout the course brainstorming, creative writing assignments and various activities are encouraged to keep the students motivated in this field.</p>
